

The Miami-Dade Transportation Planning Organization (TPO) is seeking your SMART ideas to improve transportation in your municipality. The TPO SMART Moves Program is a municipally administered program that will be used by the TPO to prioritize and program projects that will support the implementation of complete streets, first/last mile connections, connected and autonomous vehicles, transit supportive projects, and other priority projects that enhance connectivity, accessibility, and integration of the entire network.

Please complete these simple questions regarding your SMART idea and respond by March 9, 2018, at 5:00 pm. Follow-up calls may be conducted by the Miami-Dade TPO. Thank you for your responses!
